PROFILE

Passionate and driven Frontend Developer with a strong background in frontend developer skills. I enjoy creating visually appealing and effective web experiences that work well on any screen. I approach each project collaboratively and problem-solving, resulting in clean code and a flawless user experience. My enthusiasm for front-end development drives my ongoing learning, keeping me up to date on the latest technologies and trends.

SKILLS

HTML5 ,CSS3 , JavaScript, Bootstrap, PHP, React Js, Node.js, Tailwind CSS , Back Office, MySQL, Oracle, Python, Java, Git, Github

PROJECTS

Hotel Booking Website

A responsive web application that allows users to browse hotels, view room details, and make bookings. Built using React JS, Vite, NPM, and Tailwind CSS, featuring a clean and attractive UI.

Climate Tracker

A weather monitoring web application built with React JS and Tailwind CSS, utilizing a Weather API to display real-time temperature, humidity, and city-specific forecasts. The app features a modern user interface and uses NPM packages for efficient performance.

Payroll Expense Manager

A simple web application built using HTML, CSS, and JavaScript to manage daily expenses. Users can add items with their prices, and the app automatically calculates the total expenditure.
